Until Christ Be Formed In You

This year Joseph H. Hagan will celebrate his tenth year as President of Assumption College. During these ten years he has repeatedly demonstrated his dedication and commitment to the college and its growth as a Catholic liberal arts institution.

President Hagan came to Assumption in 1978 with a long list of achievements, not only as an educator, but as a leader as well. Positions he has previously held include having been Vice President of Bryant College, Assistant to the Chairman of the National Endowment for the Humanities, a legislative assistant in the U.S. House of Representatives, and a college lecturer.

A native of Rhode Island, he holds undergraduate and graduate degrees from Providence College and Boston University. He has been awarded honorary degrees from Salve Regina and Mount St. Helen Colleges. The President is also active in many educational, religious, and civic organizations and is a dedicated family man as well. He is married to Patricia O'Malley Hagan and they have one son, Kevin.

In the past ten years President Hagan has implemented numerous changes and programs for the betterment of Assumption College, both structurally and academically. These include reorganizing the Business Office to better serve the college, increasing the salaries of administration, faculty, and staff to a more competitive level, reorganizing the Student Affairs Office to better address the needs of the students, and supporting such programs as Hu-

manarts and the opening of the French Institute to serve the social and cultural needs of the college and the community.

President Hagan has also initiated studies into the curriculum and added majors in Accounting and Management to the undergraduate program. These majors constitute the largest draw among new applicants. He established a Center for Continuing and Professional Education, which includes a Bachelor of Science degree for Registered Nurses and a Master of Business Administration Program, to better serve the community. President Hagan has remained committed to these programs through the fostering of a caring and dedicated faculty.

In the past ten years the President has been committed to the growth and upkeep of Assumption as well, renovating existing buildings and constructing several new buildings. These buildings include the Campus Center, completed in 1984, the new library, which will be ready to use in the Fall of 1988, and several new residential buildings to house the growing resident student population of Assumption. Plans are also being completed for the construction of a Field House, which will enable the Athletic Department to function at a higher level.

All this growth has occurred at a time when demographic studies have reported that the number of college-aged students have decreased and many other colleges have needed to cut back in order to survive. President Hagan has instead been dedi-

cated to the growth of Assumption and his strong belief in Assumption's ideals has helped this college to survive in the face of such statistics. "But in order to survive, such schools must remain true to the purpose of their founders, be prudent in the management of their resources and be vigorous in seeking support from all who believe in the value of pluralistic education in a free society". This approach is obviously working at Assumption. While other colleges are experiencing a decline in enrollment, Assumption received over 2,200 applications for admission to 498 freshmen openings in the fall semester of 1988.

This overwhelming number of applications alone gives testimony to the fine work President Hagan and his staff have accomplished, and when this is considered in conjunction with the record growth in Alumni and community support that the college has experienced the enormity of President Hagan's accomplishments becomes even more readily apparent.

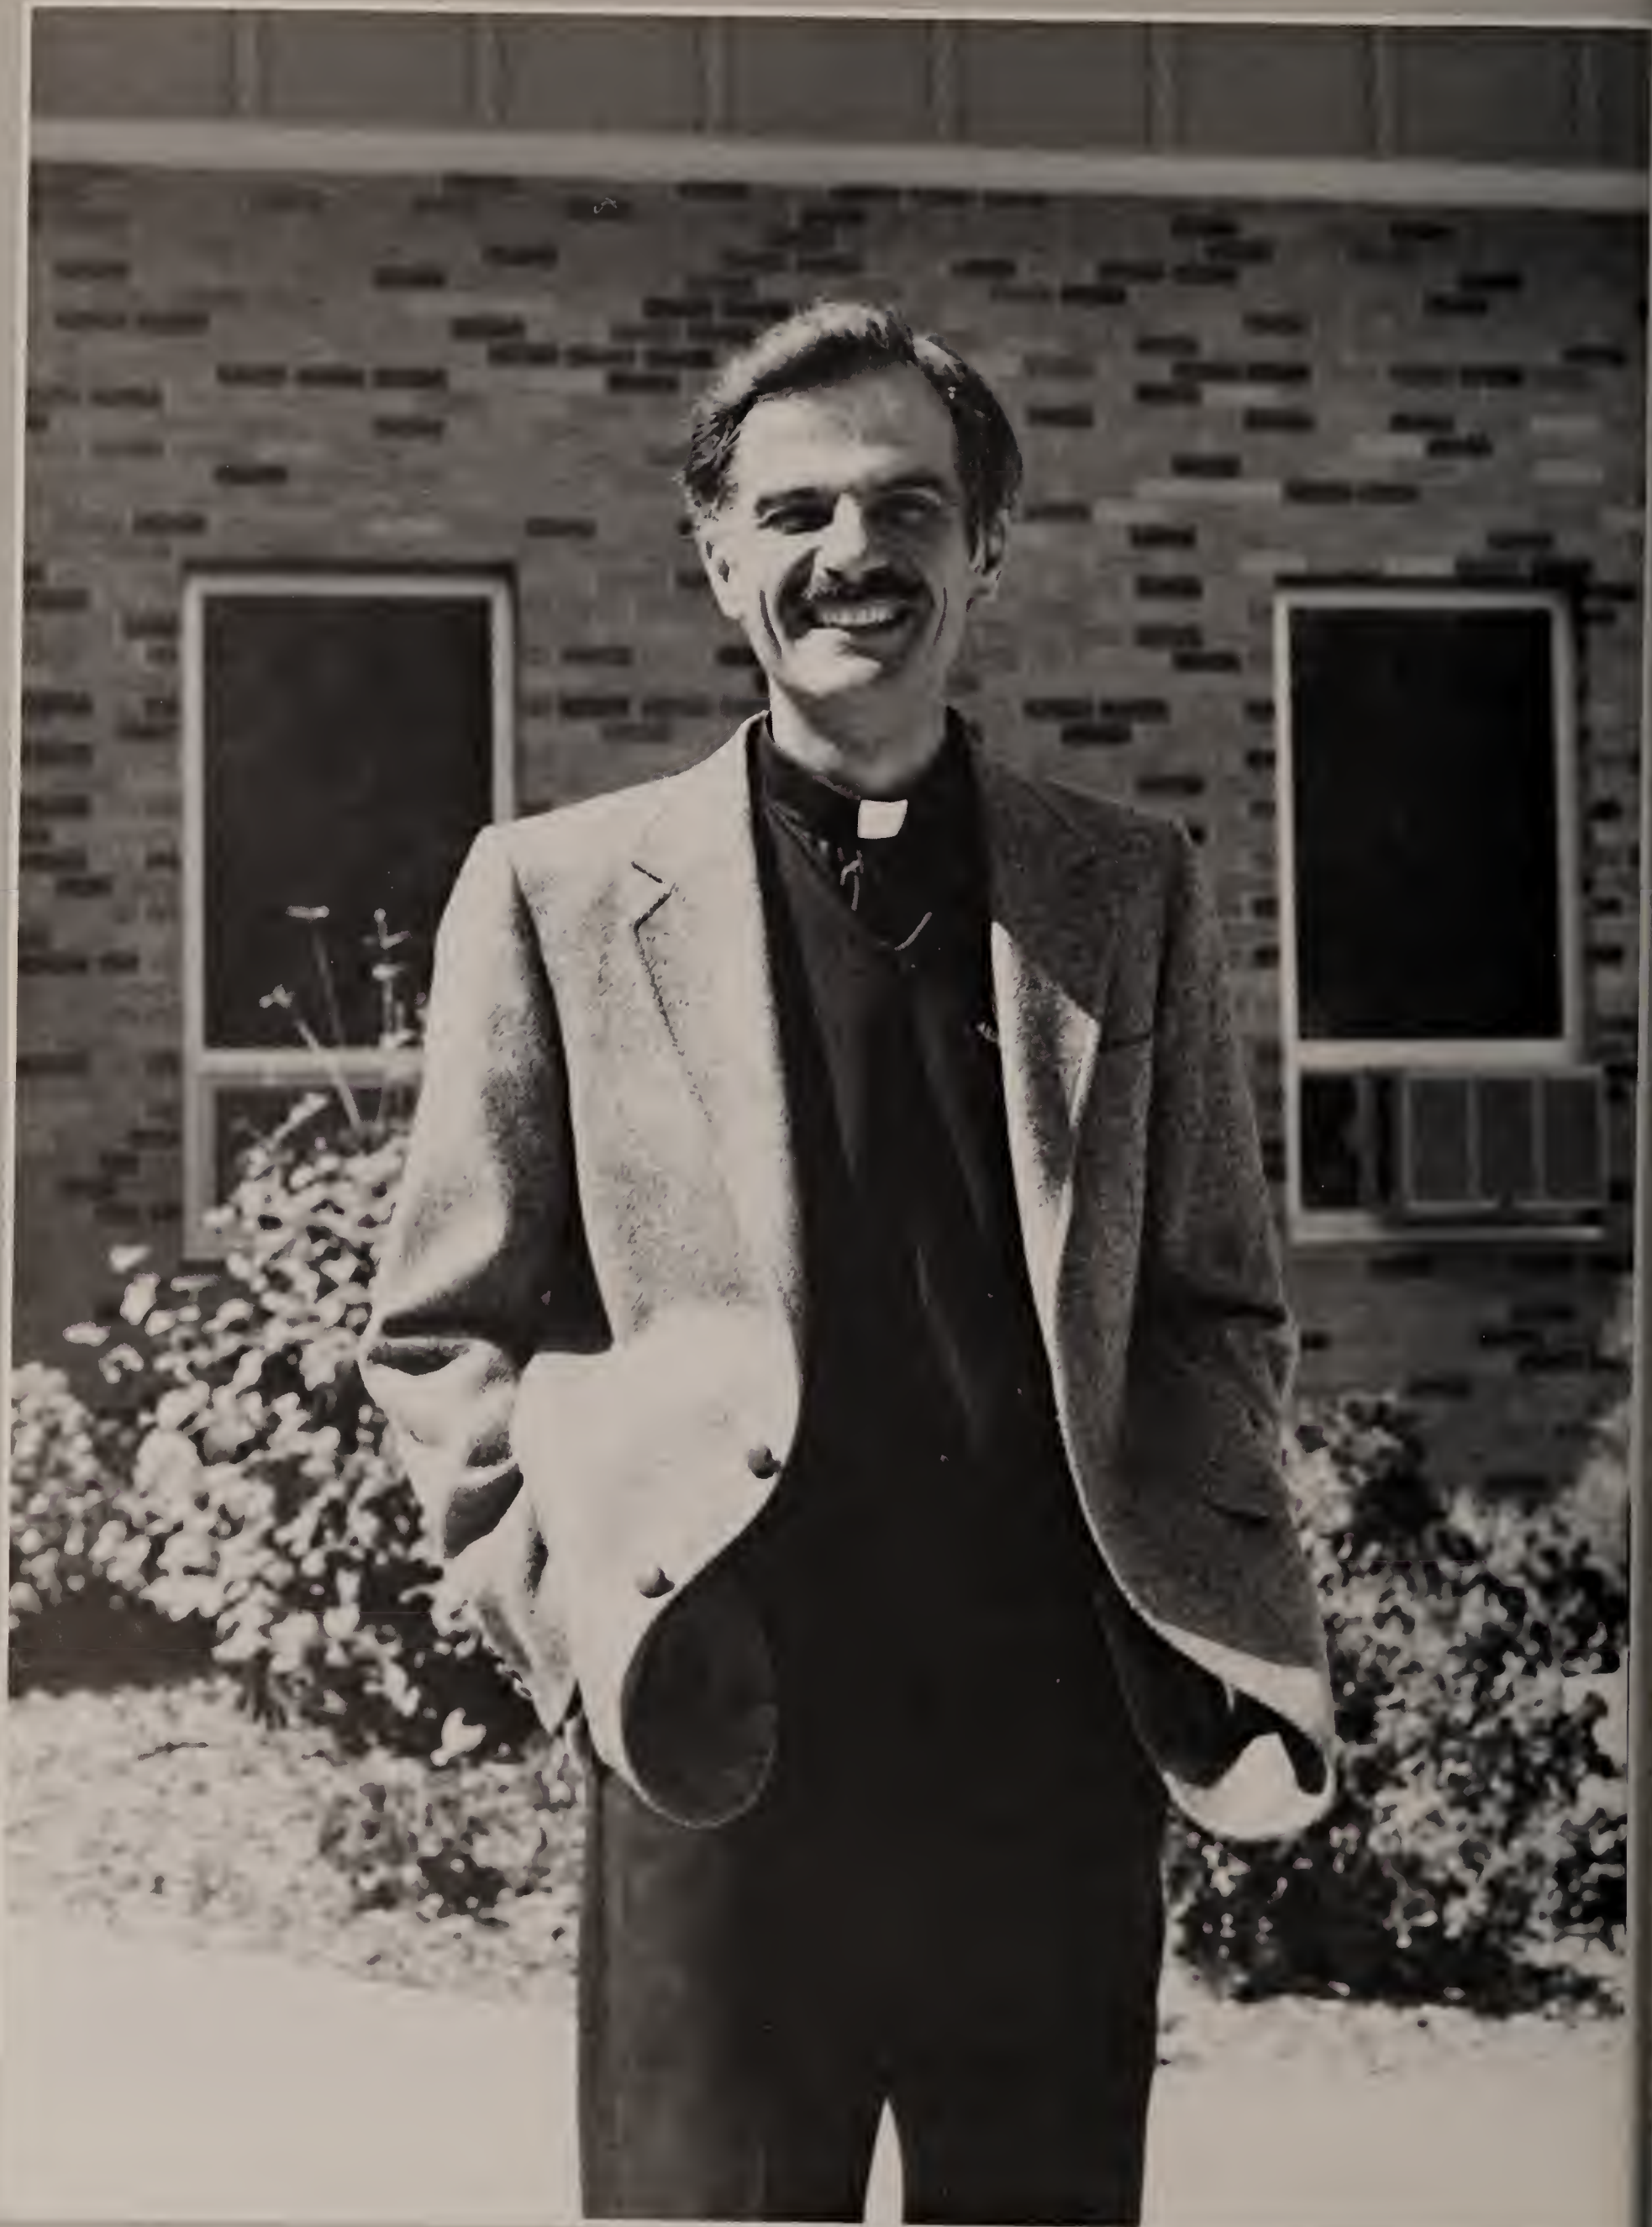

It is for this demonstrated commitment to the survival and betterment of Assumption College that we the students would like to dedicate these pages of the 1988 edition of the Heights to President Hagan. We would also like to take the opportunity to offer our congratulations and gratitude to the President, on this the occasion of his tenth anniversary. We are confident that under his competent leadership Assumption College will continue to thrive and be a source of pride for us all.

*At Assumption any excuse was a good excuse to party! Whether it was Halloween, Christmas, someone's birthday, or, as was most often the case, a **WEEKEND!** All it took to get things started was a few friends, a few drinks, some music, and word of mouth usually managed to do the rest. Even if the Campus Center was dead, the townhouses could be counted on for at least a couple of good parties.*

If you were lucky enough the weekend started on Thursday, usually at Casey's, and there were often a few grin faces - as well as a few missing faces - in class on Friday mornings.

*Then on to the real weekend and some serious partying with your friends. This included quarters games, dancing, and anything else you could think of to help you let off some steam. Saturday was usually spent sleeping off the effects of Friday night and on Sundays it was back to the old homework grind. Long after the hours you spent studying here at Assumption are forgotten, you will still remember the **WEEKENDS!***

**Bring On
The
*WEEKEND!***

FRIENDS ARE FOREVER

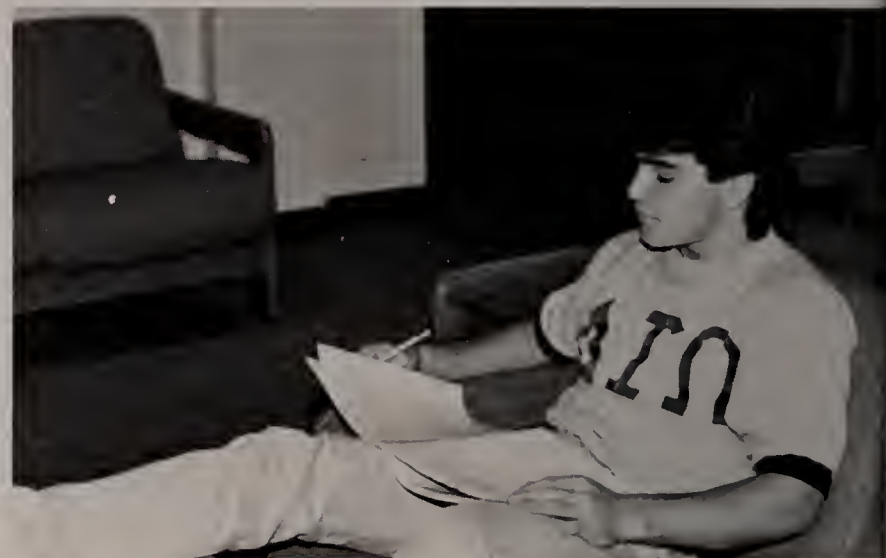

The friends we made here at Assumption will most likely be the source of our happiest memories of college. They are perhaps the greatest gift we have received during the last four years. They helped us through the bad times and celebrated with us through the good. Who else but a friend would spend hours commiserating with us over our last test grade and then treat us to a pizza to ease the pain? Who else but a friend would help us plan a great practical joke to help us get back at our other "friends" who "peanut buttered" our doors? Who else but a friend would lure us away from the boring monotony of homework to go and have a few beers?

Memories of late night gab-fests and pick-up basketball games will linger long after the ink on our diplomas have faded. When you get right down to it nothing we have learned here can substitute for the lessons and the love we received from our FRIENDS.

FINAL ANXIETY

1. Some student will try anything to remember! 2. Are they really studying - or just pretending? 3. This guy looks too laid back to be studying for FINALS!

"I cannot believe I waited until the last minute to study a whole semesters' worth of work!" *Even if this was not everyone's experience of FINALS at Assumption, you can bet that they caused a lot of anxiety. The Library and the Campus Center were packed with students cramming, trying to remember as much as possible. Tension was pretty high, and even though 24 hour study hours kept the campus pretty quiet, the occasional scream of a frustrated student pierced the air. Yes, FINALS were anything but a time for fun!*

4. Colleen may be smiling on the outside but inside she can not wait for all this Final business to be over!

1. I guess these guys are on the group plan. 2. "Please just let me stay awake long enough to finish this chapter!" 3. "They're coming to take me away - ho, ha, hee, hee!" 4. "It's all under control, I'm going to ace this exam!" 5. It's those Biology majors - studying again! Do they ever do anything else?

Greyhound Hockey

Greyhound Baseball

Greyhound Lacrosse

Greyhound Track

Greyhound Softball

The Bands Played On!

The bands came to Assumption this year, even with a limited SGA budget, to help us party away those weekend nights. The Bermuda Strollers came, then we almost saw the Strollers. Max Creek came with the Hip Civillians, and WACR hosted a Battle of the Bands. The Fools came back again, and other bands came too! These events tended to be the best attended events on campus, even in the case of the Band (the Strollers) who left without finishing the show. (Not their fault), and having a band could almost guarantee you a night of fun.
